

# PRECAUTIONS FOR ON-SITE WORSHIP SERVICES

## THOMPSON ROAD BAPTIST CHURCH

---

We are excited to be gathering back on-site for our regularly scheduled services. As we strive for a safe environment, we will use extra care in several areas

On-site attendees practice touchless greeting (*no handshakes or hugs for now*)

Those who have or recently have had symptoms of illness are asked to stay home and participate online (*we're praying for you!*)

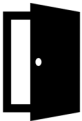

Items are not being passed among attendees, including offering plates, print materials, or hymnals. Music lyrics will be displayed on the projection screen and offering plates will be available at the rear auditorium exit

Seating in the main auditorium will be clearly marked for safe distancing. People from the same household should sit together (*you can have your favorite seat back soon!*)

If you fall within the high-risk groups as defined by the CDC and choose to stay home, we hope you can participate online

Doors will be propped open as you come and go. Common areas will be cleaned before and between services

Our city has mandated use of face coverings (with some exceptions). We recommend that you follow this precaution. Masks and hand sanitizer are available near each entrance.

Please continue to practice social distancing, maintaining 6' between you and others.

*\*Remember the good news: all of these precautions are temporary as we phase back into assembling and connecting as a spiritual family in Christ. We trust the Lord for safety!*
